

The 2nd Conference on Sustainable Development of Global Intelligently Interconnected Digital Economy and World Internet of Things Convention 2026 SVIP Invitation Letter

Distinguished Sir/Madam,

In line with the spirits of United Nations' global digital cooperation and the Sustainable Development Goals, and with a view to strengthening global digital economy innovation and cooperation, jointly building an advanced intelligently interconnected digital economy global market, and delivering the dividends of the development of global advanced digital economy and society, the 2nd Conference on Sustainable Development of Global Intelligently Interconnected Digital Economy and World Internet of Things Convention 2026 (the 2026 Annual Conference) will be held jointly by WIOTC and China Mobile Communications Association (CMCA) from 2 to 4 November 2026 in Beijing, China, with a parallel session in France. We sincerely invite you to participate in our annual conference. This would be a great opportunity for you to show the world your company's innovation capacity and the need for market expansion. Thank you for your support to WIOTC!

The 2026 Annual Conference, under the theme "A World of Smart Interconnection, A Future of Win-Win Cooperation" will feature the Opening Ceremony, main forums as the World New Economy Forum, the Ambassadors' Forum, the Urban Innovative Development Forum, with parallel forums on IIOT/Smart Manufacturing, Agriculture, Smart Energy, Transportation and Auto Intelligence, Artificial Intelligence, Healthcare, Low-Altitude Intelligent Connected, Standardization, and, as well as special forums for national or regional governments and enterprises. We will also release the "Blue Paper on the Development of Global Intelligently Interconnected Digital Economy", present awards for Global Intelligently

Interconnected Digital Economy Demonstration Cities and Demonstration Enterprises, Intelligently Interconnected Digital Economy Awards and Outstanding Cases, serving as references for the government agencies and enterprises around the world in digital transition and upgrading. Distinguished guests expected to attend include the United Nations Secretary-General, leaders from multiple countries, government officials from nearly 100 countries, ambassadors and diplomatic envoys, heads of UN agencies and international organizations, representatives from research institutes and think tanks, and entrepreneurs from the IoT and digital economy sectors. The 2026 Annual Conference focuses on the upgrading from the fully connected (Internet of Everything) pattern to an intelligently interconnected model, and the transition from digital economy to advanced digital economy so as to deliver benefits to people's smart life, smart production and smart work; and to promote the innovative development of digital economy, support the building of the community of shared future and realizing the UN SDGs.

The World Internet of Things Convention, or WIOTC, is an IoT-digital-economy international convention organization that is innovative and nonprofit. The WIOTC has been registered and recognized by the Economic and Social Council of the United Nations. We have successfully held the ten annual WIOTC and First Conference on Sustainable Development of Global Intelligently Interconnected Digital Economy, attracting significant attention and participation from the United Nations, numerous national governments, international organizations, and enterprises. In recent sessions, total online and offline participation exceeded 10 million, with over 400 million viewers following the live broadcasts and related coverage. UN Secretary-General António Guterres and Under-Secretary-General Amandeep Singh Gill have continuously delivered remarks for the conference, which are published on the official website. The event has been reported by China's Government Website, Xinhua News Agency, Europa Press, China Media Group (CCTV, CGTN), PR Newswire, Phoenix TV, World News Network, People's Daily, CNR, and thousands of other global media

outlets. These efforts have played an active role in promoting innovative development of the world economy and society, strengthening international cooperation, bridging the digital divide, and advancing the UN Sustainable Development Agenda.

We thank you sincerely for your continued support and participation in the 2026 Annual Conference.

Yours respectfully,

World Internet of Things Convention
